

Clients

"The search you led was the most humane of these in which I participated. I felt the process was transparent and the information conveyed to me accurately reflected the school. Your willingness to work with us after the search was over, to lead our board in a workshop on 'good governance' and 'transitions' was both enormously helpful and informative."

– Head of School, Crystal Springs Uplands School

"In our search for a new Head of School, you brought a wonderful sense of credibility, conscientiousness, and calm to a process that can seem somewhat overwhelming. Your ability to manage the process without directing allowed us to make authentic, thoughtful decisions for our school."

– Search Chair, Meridian School
